CSA-1240-62

MEMORANDUM FOR: Deputy Director (Research)

SUBJECT   : Application for Staff Employment -

25X1A

1. This memorandum contains a recommendation for your approval. Such recommendation is contained in paragraph 6.

25X1A   2. As you know, ███████████████ has for sometime been contemplating applying for Staff Employment with CIA. He has now submitted the necessary completed application forms and this office requests that formal action be taken at this time.

25X1A   3. ███████████████ has been in a military detail status with CIA since November, 1959. From December, 1959 until April, 1961, he was assigned to one of our overseas detachments. Since the latter date, he has been a member of the Operations Division in Headquarters.

25X1A   4. It is not our intention here to elaborate on Lt. ███████████████ technical competence, a matter with which we feel you are well acquainted, but rather to convey to you our strong belief that, as a civilian, he can contribute as much, or more, to the overall Agency effort as he has contributed in the role of a military detail. In view of ███████████ 25X1A extensive Air Force experience, his knowledge of Agency organization and procedure, and his familiarity with the intelligence community as a whole, this office believes he would be a definite asset to CIA as a career staff employee.

25X1A   5. ███████████████ is a United States Air Force Reserve Officer and therefore his conversion would present no problem from the standpoint of the dual-office/dual-compensation question. He estimates that he can obtain release from the Air Force approximately ninety days after he submits his request for retirement. He is prepared to request such release immediately upon being advised that he has been accepted for staff employment.

25X1A   6. It is recommended that you approve staff employment for ███████████████ at the GS-14 level in the DD/R (R) Career Service.

JACK C. LEDFORD
Assistant Director
(Special Activities)

OSA-1240-62
